Type: ROUTINE INSPECTION

Date: OCT-04-2004

2.31 ( d ) ( 2 )

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

(2) Prior to IACUC review, each member of the Committee shall be provided with a list of proposed activities to be reviewed. Written descriptions of all proposed activities that involve the care and use of animals shall be available to all IACUC members, and any member of the IACUC may obtain, upon request, full Committee review of those activities. If full Committee review is not requested, at least one member of the IACUC, designated by the chairman and qualified to conduct the review, shall review those activities, and shall have the authority to approve, require modifications in (to secure approval), or request full Committee review of any of those activities. If full Committee review is requested for a proposed activity, approval of that activity may be granted only after review, at a convened meeting of a quorum of the IACUC, and with the approval vote of a majority of the quorum present. No member may participate in the IACUC review or approval of an activity in which that member has a conflicting interest (e.g., is personally involved in the activity), except to provide information requested by the IACUC, nor may a member who has a conflicting interest contribute to the constitution of a quorum;

\*\*\* The principal investigator for protocol (b)(4) is a voting member of the IACUC. The protocol was approved by the IACUC in a convened meeting, in which the principal investigator was attending. This considers as conflict of interest as explained in the regulation above.

Correct by: next protocol approval

\*\*\* Protocol (b)(4) was approved by the committee in a convened meeting, stipulating that minor changes have to be done. The protocol then made it back to the following meeting for signature. The committee should give the approval when a complete description of the proposed activity is submitted. The committee can use designated reviewer if needed
